Research Writing Guide in 2020

The purpose of an equity researcher is to provide insight and detailed analysis into a company, entity or sector and this information is then used by investors to decide how to allocate their funds and by Private Equity firms and investment banks to value companies for mergers, LBOs, IPOs etc. Buy-side firms will

considers both past and presents data about a stock, whereas technical analysis considers only past data. Fundamental analysis is useful for long term investors. In contrast, technical analysis is useful for day traders and short-term traders who wish to earn profits by selling the stock over a shorter period of time.
