Read PDF 1936 Ford Engine Manual

Ford, or flatty when the context is implicit, such as in hot-rodding) is a V8 engine of the valve-in-block type designed by the Ford Motor Company and built by Ford and various licensees. During the engine's first decade of production, when overhead-valve engines were rare, it was usually known simply as the Ford V-8, and ...

Ford flathead V8 engine - Wikipedia

This fascinating film has a Ford V8 22HP tell the story of it's manufacture from the mining of iron ore right through to it being driven off the production line.

Although very modern for its time, production at the vast Dagenham factory seems very hands-on by today's standards.
