Mondeo Diesel Engine

The Ford Duratorq engine, commonly referred to as Duratorq, is the marketing name of a range of Ford diesel engines first introduced in 2000 for the Ford Mondeo range of cars. The larger capacity 5-cylinder units use the Power Stroke branding when installed in North American-market vehicles. The first design, codenamed "Puma" during its development, replaced the older Endura-D unit which had been around since 1984. Commercial versions of the Puma unit replaced Ford's older "York" type unit used

Ford Duratorq engine - Wikipedia

With diesel engines expected to power 90% of Mondeo hatchbacks in Britain it's important to offer a strong choice and Ford has delivered. Offering a range of power outputs is a 2.0-litre unit, which starts off with 150 hp and 350 Nm of torque, in six-speed manual, front-wheel drive form.
