Religion and Anthropology by Brian Morris

The comparative anthropology of religion, or the anthropology of religion compared: a critical comment In this commentary, I argue that we need to expose the multiple layers of historical thinking about the pro-duction of the category of religion that play into both our scholarly thinking and the way religion is lived.

The comparative anthropology of religion, or the ...

The comparative study of religion formed a central building block of anthropology as the discipline emerged in the nineteenth century and early twentieth century. In the light of social evolutionary models of human development, religious practice was perceived as providing a powerful index of the mental and moral levels of so-called primitive peoples.
