Business process reengineering and the commodification of ...

Commodification is the process by which something becomes a commodity. A commodity has two primary characteristics: it has a market price and is undifferentiated. Commodification is associated with the creation of markets for things such that they are bought and sold at a market price. It is also associated with a breakdown of differentiation whereby things that were viewed as unique are viewed as common, standardized and unexceptional.

15 Examples of Commodification - Simplicable

Commodification is often criticised on the grounds that some things ought not to be treated as commodities—for example water, education, data, information, knowledge, human life, and animal life. [5] [6] Human commodity is a term used in case of human organ trade , paid surrogacy also known as commodification of the womb , and human trafficking .
